About **Softcity**

Softcity was founded in 2008 with the primary focus of creating value and satisfying the Information Technology needs of the world at large. Since the commencement of business, we have created a great niche for ourselves as an expert in the provision of web app development, mobile app development, desktop app development, web design and hosting, cyber vulnerability testing, and other bespoke enterprise services in the information technology space.

At Softcity, we measure our success from our customer's satisfaction; for every constructive criticism, we go an extra mile to adapt flexibly to the genuineness of our clients' reservation, and we erase every reasonable doubt completely and sincerely. We do not deny ourselves the 'human-ness' of our capacity; however, we focus on the negligibility of such impact, and we improve over it significantly.

We do continually strive to improve our skills and communication networks with the primary goal of serving you like no other entity will do. Yes! "Like No One Will Do" We are currently operational in 4 locations; New York (Softcity, LLC), Nigeria (Softcity De Luxe Limited), South Africa (Softcity Pty Ltd) and India (Softcity India).

Our core strategy in Softcity is the patient and detailed understanding of your needs; which we employ in the professional application of our skills and experience, we don't stop there, we ensure the continuity of your peace of mind.

ACCESS BANK LMS

excellence at its peak

We are proud to have delivered this custom built learning management system. It is a fully scalable solution for a client with strong passion for excellence and global standard.

This application comes with a web app for authoring courses and a mobile app for social learning and interactivity.

It was professionally crafted to guarantee quality banking education in the Access Bank School of banking excellence.

Psychometric Testing Portal

Developed by Softcity | www.hizen3.com

This is an online psychometric testing web app that is used by hundreds of corporate organizations.

We built this app for a client who wants resilience to concurrent user demand. The app allow thousands of job applicants to submit their CV, and get shorlisted for an interview by taking psychometric examinations.

With a very robust backend analytics, corporate organizations can access candidate's profile, download automated assessments and confirm candidate shorlisting. This is just 10% of what this app can do. Softcity offer development of powerful, one-of-a-kind software, intended to meet customers' unique demands.

PHP
C++
JAVA
ASP.NET

The screenshot shows a software management dashboard. On the left is a dark sidebar with a search bar and a list of menu items: Dashboard, Catalog, Orders, Customers, Price Rules, Modules and Services (highlighted), Shipping, Localization, Preferences, Advanced Parameters, Administration, and Stats. The main content area is titled 'Modules and Services' and 'List of modules'. It features a table with columns for module name, a count in a blue circle, a status icon, a description, and a 'Configure' button. The table lists several modules: 'All' (183), 'Administration' (14), 'Advertising and Marketing' (8), 'Analytics and Stats' (26), 'Checkout' (2), 'Comparison site & Feed managem...' (1), 'Dashboard' (4), and 'Emailing & SMS' (3). The 'Categories block v2.9.2' module has a 'Need update' badge. The 'CMS block v2.1.1' module has a 'Configure' button. The 'Contact block v1.4.0' module has a 'Configure' button. At the top right of the main area are three icons: a refresh icon labeled 'Update all', a plus icon labeled 'Add a new module', and a help icon labeled 'Help'.

Developed By Softcity

PlayWave Music App

The Playwave mobile app is a revolutionary innovation in the entertainment industry. We worked closely with an entertainment expert on this app, and we ensured that excellence was delivered. With a subtle combination of Java, Objective C and PHP, we built a mobile app that persistently sync to a web service resident on a cloud server and seating on a SQL database.

Just that you know; Our client was greatly satisfied and pleased.

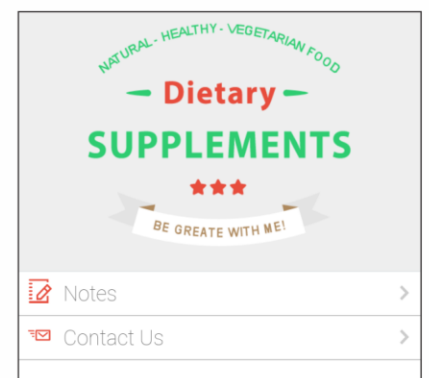

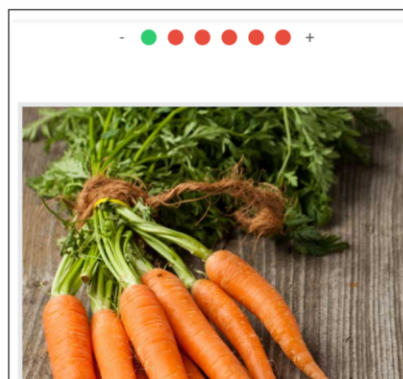

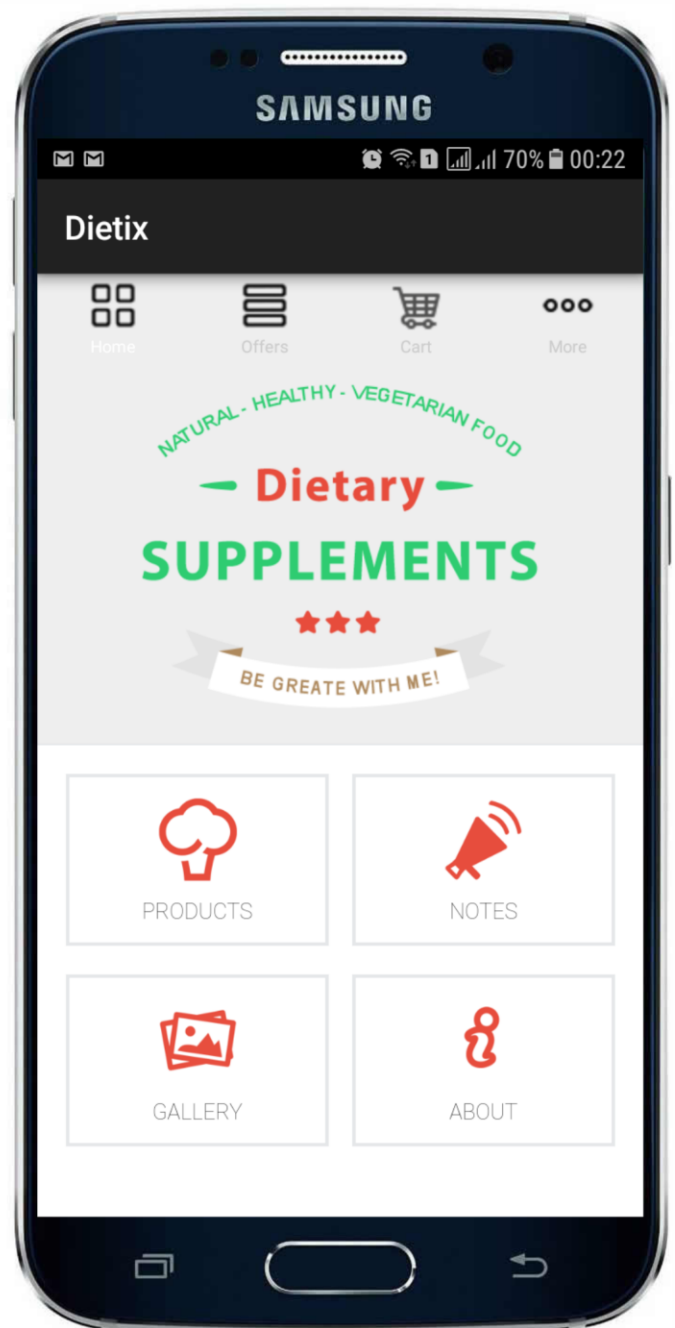

To see all our app projects, visit [playstore](https://playstore.com)/[appstore](https://appstore.com) and search for Softcity Developers

The Dietix Mobile App

We worked with a very meticulous client on this project. It is a mobile app for diet conscious individuals, and it is the quickest and the fastest way to get ahead of your daily diet needs.

While working on this project, we ensured that we carried our client along, and guaranteed satisfaction on every element that was integrated into the app (both in design and development).

Project was completed using Java (Android), Swift (iOS), PHP (Backend), MySQL (Database).

To see all our app projects, visit [playstore](https://playstore.com)/[appstore](https://appstore.com) and search for Softcity Developers

www.bubbleboxgroup.com

Whenever Softcity designs a website, we are very determined to reflect the client's brand in the best way possible. Our priority is to see our clients looking great online; this is why we combine the best of HTML5 and CSS to capture the detail in every brand.

Mobile Friendly

This is an E-Commerce portal designed to satisfy the responsive standard of every mobile devices; smartphones and tablets.

We developed this online store with a robust backend that comes with business analytics dashboard, product management system, order management system, customer management system and online payment system.

Our language of choice for this application is PHP and Javascript.

ECOMMERCE WEBSITE

Our Responsive design allow your web visitors enjoy a site that is easily viewable on different sizes of devices. The responsive design approach makes use of flexible layouts, flexible images, and cascading stylesheet media queries.

When responsive design is used on a website, the web page will be able to detect the visitor's screen size and orientation and change the layout accordingly.

This Is What We Do...

Developed By Softcity | www.cushlr.com

Emergency Rescue Mobile App

Developed By Softcity

Platform

This application was launched on Android and Apple iOS.

Language

We built the Android using Java, while Apple iOS was built using Swift.

Front-end Feature

A quick-dial emergency solution that automates emergency phone calls.

Back-end Feature

A fully integrated application management system with call logs.

Testimonial

The client confirmed that Softcity is surely a reliable innovation partner.

To see all our app projects, visit [playstore](https://playstore.com)/[appstore](https://appstore.com) and search for Softcity Developers

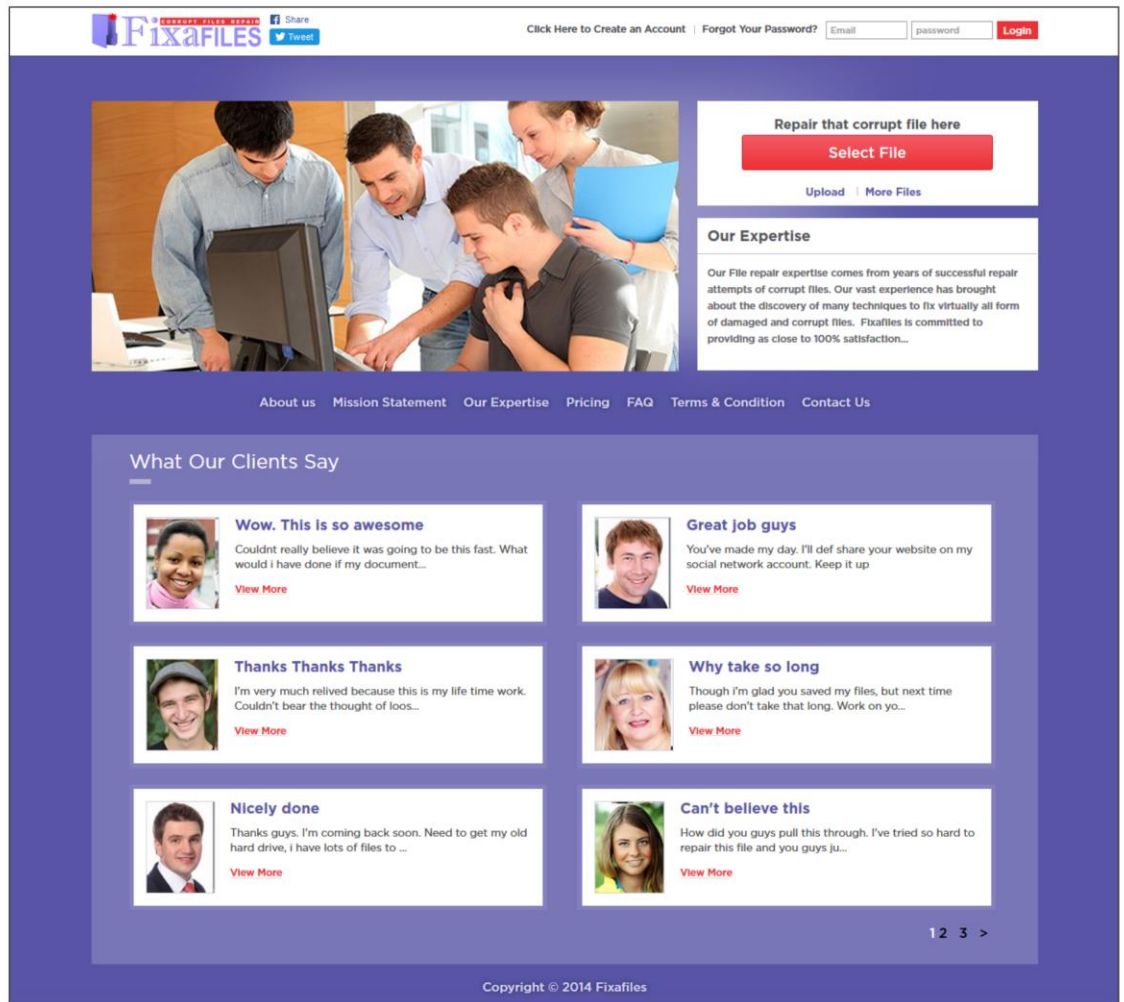

File Repair APP

This web app is a fully automated file repair robot that fixes corrupt and damage files such MS word, PDF, images, etc. If you aspire to have any application engineered using Javascript, a highly acknowledged scripting language; Softcity will be your ideal choice.

JavaScript

Node / React JS

Angular JS

Developed By Softcity | www.fixafiles.com

The amazing thing about this web application is the fact that, users do not need any knowledge of file repair to get all their damaged files fixed. All you have to do is visit the home page, upload the corrupt or damaged file, and the app will automatically evaluate the extent of damage and calculate the time to fix. Also, you do not have to wait, the app will send you a notification when the repair is completed.

We Design, We Develop, We Manage

Upon deployment of this app, the client rated our performance as excellent and highly professional.

If you actually think a App development project is a big deal - Try Softcity and we will demystify your perspective with quality app design and development.

MeeGo GAME mobile app

Developed By Softcity

It is not all the time that you find a client that wants to entertain thousands of individuals with a beautiful game. We are privileged to work with a dynamic client, who had a very cool game concept, and simply needed a company that can convert his ideas into a software product. Softcity did more than just build this great mobile app gaming engine, we ensured that our client experienced the gratification of a job well done.

Our development methodology was purely Agile, and following a detailed software development life cycle, we were able to complete the app with a combination of Java, Objective C, ASP.net, HTML and Javascript (These are programming languages).

To see all our app projects, visit [playstore/appstore](#) and search for Softcity Developers

Tap into the open world of knowledge as you learn anything you can ever imagine - all in one place

This is a dynamic mobile app developed by Softcity. Our client wanted a Lagos city companion that anyone can use to locate the best spots in Lagos; users can find restaurants, malls, cinemas, clubs, etc. Users can use the in-app mapping to get directions and also use the in-app phone dial feature to call the locations they are planning to visit. Client was surely pleased.

Welcome to Christy Caleb Foundation

ChristyCaleb foundation is a non profit organisation, set up to help the less fortunate in the society. It focuses primarily on education and health related challenges. The organization which started in 1999 is focused on changing lives and renewing hope. ChristyCaleb Foundation, after extensive research and the assessment of the world health organization (W.H.O) report, which showed that Nigeria has the highest cancer mortality rate in Africa (10,000 deaths) annually, spotted the need to set up a hub that exclusively cater for patients, diagnosed with cancer and other degenerative diseases, hence LARA OLOWOOKERE CANCER CENTER (LOCC). See Our Objectives Below...

- PUBLIC SENSITIZATION**
Provision of life-saving information to cancer patients
- INTEGRATED TREATMENT**
Promoting Integrated approach in curing cancer
- CARE AND SUPPORT**
Support for Autistic children and dementia patients
- COLLABORATIONS**
With national, regional and international agencies
- PHILANTHROPIC ACTIVITIES**
To provide financial support to the less privileged
- SETUP OF CANCER CENTERS**
Equipping communities with modern Cancer Centers
- CANCER RESEARCH**
Result-oriented research on cancer and other diseases
- YOUTH EMPOWERMENT**
Empowering the youths through entrepreneurship

"This Is How We Care - Cancer Tips"

Sulforaphane is a compound found in vegetarian diets, while onions and garlic contain allicin. Both compounds are proven to inhibit or slow the growth of cancer cells

Fish oil is a uniquely rich source of the long-chain omega-3 fatty acids EPA and DHA. EPA and DHA have a valuable role to play in cancer treatment.

Green tea extracts are very potent inhibitors of the enzyme 5-LPO and thus can suppress production of leukotrienes which act as cancer growth factors.

Researchers have found that a highly concentrated dose of vitamin C is "selectively" toxic to cancer cells, meaning the dose harm cancer cells but not healthy tissue.

Some Alternative Cancer Therapies

Insulin Potentiation Therapy

IPT is a very safe and innovative approach in treating cancer, it is proven with high results.

[See more >>](#)

Intravenous Vitamins

Intravenous vitamins has been proven to promote oxidation when circulated in very high doses

[See more >>](#)

Colonic Hydrotherapy

Colon hydrotherapy is another alternative cancer therapy which involves the rinsing of the colon

[See more >>](#)

Ozone AutoHemoTherapy

The oxidative nature of cancer treatment makes Ozone very effective as an adjuvant in cancer treatment.
